## Classroom Clothing

As the temperature becomes colder, for the comfort of your child in the classroom, I would suggest sending your son or daughter in two comfortable layers instead of one bulky sweater or sweatshirt. If they become too hot wearing one heavy sweater they cannot remove it. If you send them in a comfortable shirt and an additional garment (preferably something that zips instead of requires pulling it over their head) then they can be independent during classtime in removing it.

## RECESS CLOTHING

We will go outside for recess if the temperature is 25 degrees or higher (that's including a wind chill factor).

The playground can feel very windy. Please send your child with the appropriate outerwear for the weather forecast, including a coat, hat and mittens.

Also, for this age group, mittens are much easier for a child to independently put on and remove than a pair of gloves.
